Good morning:
I think this rifle qualifies for the bolt-lock mechanism rework program by Remington. I need the name and address of a good local Remington rifle gunsmith and I mean a good one. If it's not possible I will send the rifle to New York. I do not like just anyone to work on this fine weapon. This is one of the first in 1962 sold in Rochester and it is one accurate weapon and has taken many types of game from moose to elk, deer and many foxes. Thanks for your support!
