Dear Mr. Brower,
Thank you for your inquiry. Unfortunately, we do not replace barrels on any rifles.

Customer (Fred Brower)

I have a Remington 700 BDL in .308 caliber, which was purchased in April 1982. This firearm does have the bolt-lock mechanism, which I will soon be returning for the safety modification. My question is this: Can Remington upgrade this rifle with a vibration-dampening 26" heavy varmint barrel when the bolt repair is being done and what would the estimated costs be?

Thank you for your assistance in this matter.
