Dear Mr. Romano,  
We regret that you are experiencing a problem with your firearm. If the trigger pull is greater than 6 lbs, you can send it to our factory for adjustment. We do not recommend adjusting this yourself or through a local gunsmith as this can put the firearm in an unsafe condition.

We also wanted to make you aware of a recall on some Model 600 rifles. You can read all of the details regarding this program through the front page of our website or through the link below:

THE TRIGGER ON MY 300 WIN MAG IS HEAVY AND I WAS WONDERING WHAT I CAN DO TO IT. MY DAD HAS A MODEL 600 350 MAG AND I REALLY LIKE THE FEEL OF THAT TRIGGER. IS IT POSSIBLE TO MAKE MY TRIGGER FEEL SIMILAR? THE OTHER QUESTION I HAVE IS THAT THE ACTION ON MY RIFLE IS REALLY TIGHT, WHEN EVER I CLOSE THE BOLT, IT SHAVES THE END OF THE SHELL CASING AND THE PRIMER, IS THAT NORMAL? I WOULD REALLY APPRECIATE IF YOU COULD E-MAIL ME WITH THE SOLUTION. THANKS MICHAEL ROMANO
