Dear Mr. Atkins,
Thank you for your inquiry. According to the information provided, this firearm was manufactured in or around 1974. We want to make you aware of a safety modification program that we are offering on these firearms. You can read more information regarding this program through the front page of the property of the safety was reministed for our website at www.remington.com.

Customer (Jack Atkins) 9/5/2002 1:32:20 PM Could you supply the year of manufacture for a recently acquired (used) M 700 ADL, 6MM Rem. serial nr = A6745373?

This weapon was in a collection and fired less than a box of ammunition. It has proved more accurate than I am! Antelope seem to dread it's actions out to 300 yards!

Thanks for any help that you may be able to supply.
