Dear John,

Thank you for your inquiry. The safety modification/cleaning is \$20.00. However, when we spoke to the gunsmith he explained that after he did the modification/cleaning, he put the gun back together and due to the shrinkage of the stock because of the age of the gun, he had to work on the guard screws to make the bolt close properly. That charge was \$10.00 and is not covered under our modification/cleaning program.

i had my gun fix under your recall, and the gun shop charged me \$30.00 instead of \$20.00. on the bill it said \$20.00 for clean rifle under bolt lock safety recall, and \$10.00 for face off guard screws to allow for proper bolt closure. your recall said it costs \$20.00, not \$30.00 plus tax. the authorized dealer is Michael D. Fix Gunshop, Inc 334 Mt. Penn road, Reading Pa. 19607 ph. (610) 773-2067.
