Dear Mr. Curtis,

According to the information provided, your firearm was manufactured in or around 1975. The Safety Modification included Model 700 rifles manufactured before 1982 which had the bolt lock safety. You can read all of the information regarding this program and how to participate in it through the front page of our website or through the following link:
http://www.remington.com/Safety_Modification_Program/remington_safety.htm
