Dear Mr. Clarke,  
Thank you for your inquiry. We do not offer any stocks for this firearm. You may want to check with McMillan which offers aftermarket synthetic stocks. Also, we want to make you aware of a Safety Modification Program that we are offering on this firearm. You can view more details regarding this program through the front page of our website or through the following link:  
[http://www.remington.com/safety\\_modification\\_program/721\\_722.htm](http://www.remington.com/safety_modification_program/721_722.htm)

I have a fairly old Remington Model 722 (257 Roberts) and my son is using it for deer hunting this year (he's 10yrs old). The stock is fairly heavy and I would like to replace it with a synthetic stock with a recoil pad. Will the synthetic stocks for the Model 700 fit it? If not, do you make a synthetic stock for the Model 722? Thanks. Tod Clarke
