Dear Robert, Thank you for visiting Remington Country. From the serial number you provided, it appears your Model 700 was manufactured in 1979. As with any used firearm, we would strongly recommend you have the firearm serviced and evaluated by a competent gunsmith for function and safety. We feel it is imperative you know the exact condition of your firearm prior to shooting. Please also read our "Guide to Buying a Used Gun" found through the link below:

If you are not aware of a gunsmith in your area, please feel free to contact one of our RARC's found in the Support/Repair section of our website or the following link:

If you will complete the form located in the What's New/Reading Room section of our website, we will forward to you a copy of the original owner's manual.

You can also find owner's manuals for some of our current models on-line in our Reading Room in the "What's New" Section.

Also, please visit our "Special message for pre-1982 bolt action firearms" found at the following link:
