Dear L.C., Thank you for visiting Remington Country. From the serial number you provided, it appears your Model 600 was manufactured in or around 1974. Please visit our "Special Bolt Action Safety Message" found at the link below in regards to your Model 600:

Disagree with 1974. For your info: 1. The 600 was introduced in 1964 & remained in production until 1968. 2. 660 was introduced in 1968 & was dropped in 1971. The Mohawk 600 in 1972 & was discontinued in 1978. Advise
