Thank you for your inquiry. Per serial number that you provided, the firearm was manufactured in 1983. There is not a recall on the Model 700's, it is a Safety Modification Program. By the serial number that you provided, your firearm is not included in the modification program.

The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." <http://www.remington.com/support/10comm.htm> It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whether you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you need a replacement copy of your Remington owners manual, or safety booklet, you can download or request a copy from the Support section of our web-site.

Owners manuals - <http://www.remington.com/whatsnew/readroom.htm>

Safety Booklet - <http://www.remington.com/pdfs/sftybklt.pdf>

You may also obtain a copy by calling toll free 1-800-243-9700, and pressing option 1.

Thank you for your continued support of Remington products, and thank you for visiting Remington Country!

I bought this gun new in the fall of 1984. I do not know how long it might have been in the store prior to this. Is it affected by the recall regarding the bolt? Also could you please tell me when it was made.

Thank You

Steve Osborn
