Dear Mr. Ciampaglia,

Thank you for contacting Remington Country. We are offering the conversion at a special price until 12/31/03 so that you can open the bolt at anytime with the safety on safe. The rebate for certain safety products will also be extended until this date.

To view more details regarding this modification, go to:

I have two model 700s that qualified for the recall to modify the bolt safety. I only heard of this offer in mid December and was unable to travel to a service center for the repairs. I would like to modify them but the deadline has past. Could I still get it done and how?
