Dear Skip,

Thank you for contacting Remington Country. Your Model 700 was produced in 1994. Your firearm has not been involved in a recall.

Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

[http://www.remington.com/safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/safety_Modification_Program/remington_safety.htm)

I have a model seven, 7mm-08 serial #s7604266. This gun will fire when I go from safety to fire position without touching trigger. (very dangreous) I heard there is a recall on this. Please let me know.

Thanks
