Dear Mr. Robles,

Thank you for contacting Remington Country. The ISS keys are interchangeable so the dealer could use one from another firearm to lock it for now so you can use it. If purchased new, forward a copy of the receipt and a copy of your driver's license to the following fax or address and we will send one at no charge.

Remington Arms, Inc
Attn: Chris
PO Box 700

Sirs; I bought a new Model 700BDLSS in .264winmag, a limited run. It came without the box or paperwork and I notice it has a safety mechanism at the left rear of the bolt. I assume this requires a key to actuate, but I did not get one with this rifle. Where can I get the key? Thank You,

Tony Robles
