Thank you for contacting Remington Country. Your Model 600 was produced in 1964 and should be inspected for a trigger recall if it does not have a "V" stamped on the trigger. We suggest taking or sending your firearm to a Remington Authorized Repair Center or our factory for evaluation.

You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and selecting your model and state:

<http://www.remington.com/repairsvc/Modelselection.asp>

To view more information on this safety message, go to:
