Dear Sir/Madam,

Thank you for contacting Remington Country. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

Please send me information on my 700, I understand there is a safety question about the bolt? I purchased mine in 1973.
