

Gun fired By itself

Discussion Thread

Response (Chris)
Dear Mr. Barsky,

11/6/2003 4:52:33 PM

We apologize for the inconvenience. Your rifle may be installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

If in the US, we recommend discontinuing use and taking/shipping the firearm to one of the following Remington Premier Repair Centers for inspection.

Bolsa Gunsmithing
