Dear Phil,

Thank you for your patience. Your firearm has not been involved in a recall. Your rifle was produced in 1976 and was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

[http://www.remington.com/Safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/Safety_Modification_Program/remington_safety.htm)

We recommend taking/shipping the firearm to one of the following Remington Premier Repair Centers for inspection.
