Dear Mr. Colquitt,

Thank you for your inquiry. Your Model 700 was produced in 1980. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

customer (Jim Colquitt) 2/7/2004 11:24:09 AM  
I have heard there has been a tendency for a the above described rifle to shoot accidentally when closing the bolt or applying the safety. Please advise me if my rifle with serial number A6802554 has ever had a recall. Thank you for your assistance.  
Regards,  
Jim Colquitt
