Dear Mr. Wear,

Thank you for contacting Remington Country. Your Model 700 was produced in 1972. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

I have a model 700 300 win mag. The safety has to be in the off position to load or unload. The serial number is 6528206. I understand there has been a recall on this rifle. I would like to know what I would need to do to get this corrected. I do not wish to take the scope off to send it back.

Thanks,

Ralph Wear
