Dear Mr. Coe,

Thank you for contacting Remington Country. Your Model 721 was produced in 1950. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

The firearm should be inspected before use after the situation you described. If in the US, we recommend taking/shipping the firearm to one of the following Remington Premier Repair Centers for inspection.

Send to J & G if you live in the following states: CA, NV, UT, AZ

J & G Gunsmithing
625 Vernon St
Roseville, CA 95678
