Attached are parts lists 101 and 102. Parts lists 103, 104, and 105 are part of an open DCR (#E-00101) and have not been transmitted.

Subject: Gap in Parts Lists

Vince,

I have a gap in the parts lists numbers between the 3 parts lists you sent me this morning and the last versions on the server. I'm missing parts list numbers 101 thru 105 (101 and 102 look like they were transmitted on 3/14/05 on DCR E-00100- no DCR is listed in the logbook yet for parts lists 103, 104, or 105).

I'll need soft copies of the two transmitted parts lists (101 and 102) before I can post the new ones you sent - can you please send those two to me?

Thanks,

Jim Ronkainen
