Dear Mr. Riis,

Thank you for your inquiry. By the serial number, this rifle was produced around 1974. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

I have a Model 700 6mm gun and I wanted to know if I need to get the safety modified in this gun like I do with my Model 700 7mm rifle
