and the results are shown in Table 2. The first two rows of the table show the results of the regression analysis for the two separate regressions. The third row shows the results of the regression analysis for the combined data. The fourth row shows the results of the regression analysis for the combined data, but with the interaction term between the two variables. The fifth row shows the results of the regression analysis for the combined data, but with the interaction term between the two variables and the control variables. The sixth row shows the results of the regression analysis for the combined data, but with the interaction term between the two variables and the control variables, and the interaction term between the two variables and the control variables. The seventh row shows the results of the regression analysis for the combined data, but with the interaction term between the two variables and the control variables, and the interaction term between the two variables and the control variables. The eighth row shows the results of the regression analysis for the combined data, but with the interaction term between the two variables and the control variables, and the interaction term between the two variables and the control variables. The ninth row shows the results of the regression analysis for the combined data, but with the interaction term between the two variables and the control variables, and the interaction term between the two variables and the control variables. The tenth row shows the results of the regression analysis for the combined data, but with the interaction term between the two variables and the control variables, and the interaction term between the two variables and the control variables.

Coyote-Loki Ultra Bonded expands reliably at all reasonable hunting distances.
