

**To Assemble (Model 11-87™)**

**WARNING:** MODEL 11-87 BARRELS CAN NOT BE USED AS REPLACEMENT BARRELS ON MODEL 11-67 FIREARMS. MODEL 11-87 BARRELS CAN NOT BE USED AS REPLACEMENT BARRELS ON MODELS 11-67 FIREARMS.

**MODEL 11-87 SUPER MAGNUM™ BARREL REPLACEMENT**

ON MODELS 11-87 SUPER MAGNUM™ BARRELS A HAVING A CHAMFER CAN BE USED ON MODELS 11-67 SUPER MAGNUM® RECEIVERS.

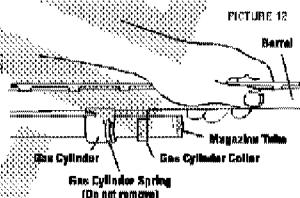

DO NOT ATTEMPT TO ASSEMBLE A SIGHT MODELS 11-67 12-GAUGE BARREL IN THE CHAMFERED CHAMBER PORTION OF A RECEIVER MARKED MODELY 11-67 SUPER MAGNUM.

**NOTE:** The barrel and chamber should be cleaned before assembling the firearm. Clean the barrel following the instructions on page 16.

1. Point the firearm in a safe direction.
2. Engage the safety mechanism. **RED BAND WILL NOT SHOW.**
3. Pull the operating handle fully rearward to open the action.
4. Unload and remove the magazine cap.
5. Slide the fore-end forward and remove it from the magazine tube.
6. Remove the cardboard packing ring from the magazine tube.
7. Remove the wire tie from the gas cylinder and gas cylinder collar. See Picture 9 or page 10.
8. Hold the barrel in front of the gas cylinder with gas cylinder collar attached. See Picture 12.

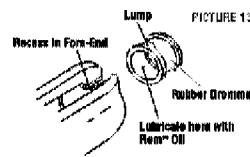

**NOTE:** A gas cylinder collar is not used on the 20-ga. models or the 11-87 12-ga. Super Magnum models.

9. Place the gas cylinder over the end of the magazine tube.
10. Align the long slot on the rear of the barrel with the stud projections from the inside of the receiver. See Picture 11 or page 10.
11. Seat the barrel firmly into the receiver.
12. Slide the fore-end over the magazine tube.
13. Repack and tighten the magazine cap.

**FOR MODEL 11-87 SPORTING CLAYS GRADE SEE NOTE BELOW**

**NOTE:** The Model 11-87 Sporting Clays grade uses a rubber grommet in the fore-end. Assemble a fore-end using the following instructions:

1. Check the position of the rubber grommet in the fore-end. Raised lump MUST be in the recess of fore-end. See Picture 13.
2. Place assembled gun upright on butt and tilt slightly toward the heel allowing the gas cylinder collar to rest in its proper position against the gas cylinder.
3. Slide the fore-end over the magazine tube until (a) seating the fore-end (at least two straight to the magazine tube as possible) (so downward) at least two (2) inches on the magazine tube are showing in front of the fore-end.
4. Repack and tighten the magazine cap.

**To Load and Unload****MODEL 11-87 SUPER MAGNUM® BARRELS PLEASE NOTE:**
