

13. Pull the operating handle fully rearward to open the action.
14. Replace the barrel.
15. **FOR MODEL 11-87™ ONLY:** Replace the gas cylinder collar. **NOTE:** 11-87 12 GA. Super Magnum™ does not use a gas cylinder collar.
16. Slide the fore-end over the magazine tube.
17. Replace and tighten the magazine cap.

WARNING: The firearm should be checked annually by the Remington® Arms Company, Inc. or a REMINGTON AUTHORIZED GUNSMITH. This will ensure proper inspection and any necessary replacement of worn or damaged parts.

Lubrication:

Over-lubrication should be avoided at all times. A thin coat of Rem-UMC oil is all that is needed to prevent rusting, drying or freezing. See field below.

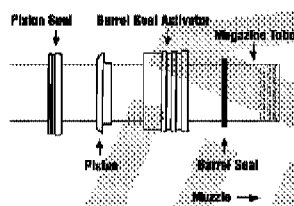

When the firearm is to be stored, it should be carefully cleaned and the exterior and inside surfaces should be oiled with a light coat of Rem-UMC Oil or an oil of equal quality. See Note below.

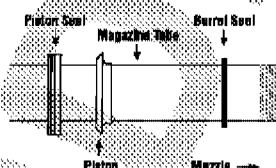

When cleaning the firearm, use only oil. Do not use kerosene or other solvents. The chamber and bore must be thoroughly wiped dry.

NOTE: Remington-Rem-UMC has labels from your local dealer if you desire them or at stock sale time to order Rem-UMC Oil from the Remington Distributor.
