

What Makes the Model 700 Great?

- ***“Three Rings of Steel”*** (See Picture 4)
 1. Cartridge head is enclosed by the recessed bolt face
 2. Bolt face locks up inside the counter-bored breech of the barrel
 3. Barrel breech is surrounded by the receiver.

The Result is Unparalleled Strength Exhibited by the Remington Action!

(Note: Three Rings of Steel Applies to Model Seven, Model 673,
and Model 710)
