

## REMINGTON INTRODUCES THREE NRA™ LICENSED FIREARMS TO SUPPORT EDUCATION AND CONSERVATION INITIATIVES

**Madison, NC** – Working in conjunction with the National Rifle Association (NRA), Remington announces three officially licensed, NRA Edition firearms – the **Model 870™ Wingmaster®**, the **Model 11-87™ Sportsman®** and the **Model 552™ BDL™ Deluxe Speedmaster®**. Each special edition firearm will feature the NRA logo and NRA prefix serial number. Remington will donate a portion of each sale from these firearms to the NRA in support of their established programs in Firearm Safety, Marksmanship, Personal Safety, Hunting and Natural Resource Conservation.

**Model 870 Wingmaster NRA Edition** – This 12-gauge, 3-inch pump-action is the flagship member of the reliable and durable Model 870 family of shotguns. Featuring a handsome high gloss finish, the stock and fore-end are constructed of American walnut and have generous machine-cut checkering. The solidly built receiver and 28-inch vent rib, Rem™ Choke barrel are richly finished with a high polished sheen. Enhancing this special edition Model 870 is a fine line engraving of the NRA Heritage logo and the “NRA” prefix serial number on the left receiver panel. The traditional “NRA” logo is engraved on the right receiver panel. Beyond the handsome appearance of this fine gun, are the venerable and durable design features of the Model 870 – America’s most popular pump-action shotgun. Suggested retail price: \$685.

**Model 11-87 Sportsman NRA Edition** – The Sportsman series, new to the family of Model 11-87 shotguns, is a durable field version of our versatile autoloader featuring weather-resistant synthetic stock and fore-end with a non-reflective black matte finish on exposed metalwork. The 12-gauge, 3-inch NRA Edition is distinctive with its Mossy Oak® New Break-Up® camouflaged synthetic stock and fore-end, “NRA” traditional logo and special “NRA” serial number rolled on the shooter’s left panel of the receiver. Ready for the dove field or duck blind, this reliable, gas-compensating shotgun has a 28-inch vent rib, Rem Choke barrel equipped with a Modified choke tube and stock swivel and magazine cap studs for sling attachment. Suggested retail price: \$665.

**Model 552 BDL Deluxe Speedmaster NRA Edition** – This classically-designed rimfire rifle has been a member of the Remington family since 1957 and is the only American-made autoloader of its kind. Its unique tubular magazine will hold Short (20), Long (17) and Long Rifle (15) cartridges, making this rimfire ideal for the serious plinker, new shooter or small game hunter. The American walnut stock features generous checkering with high gloss finish and the carbon steel barrel and solid steel receiver have a rich, blued finish. The 21-inch barrel has adjustable, big-game iron sights and the receiver is grooved for the addition of optics. This classic rimfire also has a positive cross-bolt safety. Like the Wingmaster, this special edition Model 552 has the NRA Heritage logo laser etched on the receiver’s left panel with accompanying “NRA” prefix serial number and the standard “NRA” logo is etched on the right side. Suggested retail price: \$519.

These finely crafted NRA Edition Remington firearms will be available third quarter of 2005. For further information about these and other reliable Remington products, please visit our web site at [www.remington.com](http://www.remington.com)
