

REMINGTON EXPANDS ITS AWARD WINNING CATEGORY OF MANAGED-RECOIL™ CENTERFIRE RIFLE AMMUNITION

Madison, NC – More hunters have cut their teeth in the woods and on the range with the 30-30 Win. than any other centerfire rifle cartridge. Although the 30-30 Win. is not generally thought of as a heavy-recoiling cartridge, in the hands of a young hunter, the lightweight lever-action rifles with hard metal butt plates can make for a very unpleasant start to a shooting career. For 2006, Remington has expanded its innovative line of Managed-Recoil centerfire rifle ammunition to include the ever-popular 30-30 Win.

Remington Managed-Recoil ammunition has established a new category of performance-based low-recoil ammunition, available in the most popular big game cartridges. Managed-Recoil ammunition delivers fully effective hunting performance with less than 50% of the recoil of standard cartridges. Now shooters of all experience levels can spend time on the range or in the field without the discomfort of stiff recoil. Hunters can rely on the benefits provided by a managed recoil product that delivers comfort, confidence, and most importantly, reliable on-game performance.

Remington's Managed-Recoil Ammunition succeeds where other recoil control ammunition fails. Competitive attempts at curbing recoil have focused solely on reducing the amount of gunpowder while using the same heavyweight bullets as their standard loads, which compromises the trajectory and energy levels available. Only Remington's Managed-Recoil ammunition focuses on the entire cartridge by combining select propellants and a specially designed Core-Lokt® bullet built for optimum energy and 2x expansion with 85% weight retention at lower velocities.

Additionally, Managed-Recoil ammunition is engineered to impact the target within 2" of a standard cartridge at 100 yards. This feature means hunters transitioning between Managed-Recoil and standard loads will require little to no scope adjustment on their rifles.

Remington Managed-Recoil ammunition delivers – **Half the Recoil...Twice the Confidence!**
