REMINGTON® MANAGED-RECOIL™ BUCKHAMMER® - THE PERFECT COMBINATION OF COMFORT AND DEVASTATING PERFORMANCE

Madison, NC You never hear the words comfort and performance in the same description when it comes to high-performance shotgun slugs. It's been an accepted fact that shotgun slugs equate to punishing recoil. Well, that's not the case any more with the introduction of Remington **Managed-Recoil BuckHammer**, the newest member of the Remington pioneered Managed-Recoil™ family.

Offered in a 12 gauge 2 3/4" configuration, Remington Managed-Recoil BuckHammer slugs are the first high-performance lead slugs designed to significantly cut felt recoil by 41% without sacrificing on-game performance.

The Remington BuckHammer lead shotgun slug combines the devastating knockdown power of a full bore diameter (.73 caliber) lead slug with unsurpassed accuracy. When used in conjunction with a fully rifled barrel, Remington Managed-Recoil BuckHammer delivers 3" or better groups at 100 yards while maintaining over 1000 ft-lbs of energy.

This specialized Remington slug system with its uniquely engineered BuckHammer slug and attached, stabilizing wad delivers outstanding accuracy, near 100% weight retention and controlled expansion to nearly 1 inch in diameter. These attributes combine to produce the most devastating lead slug available to hunters today.

Now, hunters of all ages can actually enjoy the necessary ritual of those pre-hunt practice sessions. Remington Managed-Recoil BuckHammer will build confidence on the range and still deliver devastating performance when it really counts.

Offerings for 2005 are as follows:

Remington® Managed-Recoil™ BuckHammer® Lead Slug

	Gauge	Shell Length	Wt. Slug	Muzzle Velocity	Muzzle Energy
New	12ga	2 3/4"	1 1/8 oz	1350 fps	2000 ft-lbs
