

**REMINGTON® PREMIER® STS® AND PREMIER® NITRO 27® -
DOMINATING THE CLAY-TARGET SHOOTING WORLD**

Madison, NC Remington Premier STS and Premier Nitro 27 clay target ammunition can be found in the shell bags of the nation's top shooters regardless of clay-shooting discipline. When nothing but the best will do, Premier STS and Premier Nitro 27 provide the consistency and confidence to get the job done.

The unmatched performance of Premier STS and Premier Nitro 27 was clearly demonstrated again this year, at the 2004 ATA Grand American World Trapshooting Championships. For the second year in a row, Remington Premier® STS® and Premier® Nitro 27® were clearly the ammunition of choice, enabling shooters to take home more trophies than any other shotshell brand available.

The prevalence of Premier STS target loads doesn't stop on the nation's trap fields. Skeet and sporting clays shooters have access to an unmatched array of loads to choose from that are specifically designed to put them at the top of their game. For example, new for 2005, Remington Premier STS Low-Recoil will be offered in 12 gauge, #9 shot size.

Remington Premier STS Low Recoil shotshells are the softest shooting, full payload target loads available. The maximum 1 1/3 oz shot charge coupled with the soft recoil of the Premier STS Low Recoil create the perfect load for those extended shoot-offs at skeet and are just the ticket for 16 yard trap.

When one clay target can mean the difference between earning a championship and "just shooting a good score," competitive shooters realize their ammunition of choice must exhibit unbeatable performance and absolute reliability. Remington Premier STS and Premier Nitro 27 provide the design features that give shooters a distinctive competitive advantage.
