

**VERSATILE REMINGTON® BRITE BORE® AND REM® OIL AVAILABLE IN
CONVENIENT NEW PACKAGING OPTIONS**

Madison, NC – Remington offers a versatile array of gun care and cleaning products and new for 2005 are new packaging options for two of our most popular cleaning chemicals – a non-aerosol, four ounce jar of Brite Bore and multi-purpose Rem Oil Wipes.

Brite Bore in a Four Ounce, Wide-Mouth Jar – This versatile, CFC-free solvent and cleaner is extremely effective in removing copper, lead and plastic wad deposits from barrels and choke tubes as well as carbon and powder residues from actions. Previously available only in a six ounce aerosol can, this convenient packaging is perfect for dipping brushes or choke tubes.

Rem Oil Wipes - The "standard" in gun care, Rem Oil has an exclusive Teflon® formula that protects exposed and internal metal surfaces with a thin, long-lasting film, reducing friction and keeping actions working smoothly in all types of weather. This versatile oil also cleans dirt and grime and displaces non-visible moisture from metal pores, reducing rust and corrosion. These new handy wipes come individually packaged in foil wraps making them perfect for field use and more. Each package contains 12 individually wrapped Rem Oil Wipes. Rem Oil is also available in convenient four and ten-ounce aerosol cans and one-ounce squeeze bottle.

Proper care of your prized firearms is a necessity and sometimes dirty work, but with the convenience of Rem Oil Wipes and non-aerosol Brite Bore, cleaning is no longer a chore. Look in the gun cleaning section at your local dealer's for these new items from Remington.
