Hey Patsy,

I am so sorry to bug you as I am very sure you are swamped! I am going to be sending the board books today for Tommy's presentation to your attention and they should arrive on Monday. I hope that's ok for you. He will just pass them out when everyone gets there. Also, could you print a couple of these slides on transparencies to see how it shows up on the old slide projector. I checked it here and the tan writing seems to show up the same as the black but we wanted to be sure. Also, Mark wanted to see if "Steel" could put a very bright bulb in the projector b/c he says it has been very dim the past couple of times. Slide # 7 is one that particularly may be one to check. Please give me a call when you have a minute.

Thanks,
Charlotte
