Subject: Firearm for SEOPA Auction

Linda,

Hope things are well with you. It goes without saying but we appreciate your and Remington's offer of a firearm for the SEOPA auction. The dates of the SEOPA Conference in Morgan City, LA are Oct. 5-8. You asked us to pick either a rifle or shotgun and we would like to auction the rifle Model 700 SPS. I'm not sure what we traditionally have in hand when we auction a firearm but we can produce our own card, or if you have a certificate that we provide to the high bidder. I do want to find out what the normal retail value is of the rifle to help us set the minimum starting bid. Also, does the rifle come with a scope? If not, do you mind if I contact Karen Lutto to see if Kahles will throw in a scope as a part of the package?

One last thing- Lisa Snuggs needs a jpg of the rifle for a brief write-up for the next SEOPA newsletter.

Thanks again,

Stan Kirkland
