Subject: Receiver follow up

Bill,

All 3 guys that cover the LE parts are out doing training and John Loschin, manager over customer services, is handling the follow - up for the 3 LH short action 308 model 700 receivers you need. He will have someone call you to find out exactly what you need. Receiver - receiver with bolt - receivers with bolt and fire control

/

You guys have been approved to buy receivers so there should not be any problems.

Via a copy of this email to Ken, I will ask that you contact Ken Nickerson, whenever you need something. (I am always available also as you know) Ken oversees the armorers and parts sales for LE
