Subject: New fire control name suggestion.

Mr. Trull,

My name is Jeff Kratzwald. I am a lab tech at the E'town facility. I would like to submit a suggestion for the name of the new fire control for our bolt action rifles.

The basic premise of this new fire control is that it's 21st century technology for a fire control system in a gun. I suggest simply calling it the "21 C" fire control, 21 C being short for 21st Century. Advertising could then be tailored to showcase leading edge enhancements incorporated into the new fire control. I.E. better trigger feel, corrosion resistance, etc.

State of the art, 21st Century technology and manufacturing have led to a true 21st Century fire control, the Remington 21 C fire control.

Thank you for your time, and allowing us to have input on this new product.

Jeff Kratzwald
