

I'm featuring the Remington 597 & 700 LV SF. My original plan was to let you choose but time has run out - ALMOST.

Email any press releases you might have or, send me one paragraph each of the text you'd like to see in print.

I'm including a Remington ammo piece (ballistics table) as well but have no art.

Can you get me a jpeg photo of: 1) 22LR, 2) .17 HMR, 3) 204 Ruger, 4) 223 REM and 5) 22-250 lined up, side-by-side.

We're too poor to have a studio & I don't have the ammo anyway!

Alternately, send a few pieces of ammo "Overnight" & I'll try with my own digital.

My preference, however, is for your staff to do it & email me the result! Your people have more experience.

See you at the ShotShow if not before. I'm also available for the Fall roll-out or any hunt you might sponsor.

Sorry 'bout the telephone tag....

THANKS!!!  
Neil
