Remington Arms Technical Center

Project Name: 504 Target Revised: 7/19/04
Project Number: 241426

R&D Engineer(s): Will B James Marketing Managers John Trull
Plant Contact: Ed Thwests

Status:

A test was conducted to incorporate Pillar Bedding into target stock verifying if there was enough wood
margin around the front takdown screw. Pillar bedding could not be incorporated into stock.

Finalized the overall stock. Ordered LR and Mag stocks for Testing.

 DAT Guns: Mayfield to supply 20 - M504LR Target and 20 - M504LRTHMR Target guns except for stocks and magnum bolts and magnum magazines for DATesting.

Issues:

1.
