## REMINGTON'S LAW ENFORCEMENT DIVISION, ARMORER'S SCHOOL AND WEBSITE

## Providing Information, Sales, Training and Service Your Organization Requires.

Remington's Law Enforcement Division. Remington's LE Division combines Law Enforcement, Wildlife, Corrections, Security, Government, and Military sales, service, and training, Under the leadership of Director Greg Foster, this division has expanded to meet the needs of these crucial organizations nationwide. We understand the critical times in which we live, and we're proud to help support those meeting the challenges ahead.

Our mission is to provide the best in products, service, training, and in management to meet the demands of the law enforcement and military

commitmities. The input from the big and military communities helps guide our evolutionary processing propinging the finest firearms and ammunition possible.

Our LE Division, localedSit Remington's headquarters in Madison, NC, coordinates all sales, production, service, and training through the firearms manufacturing plant in Ilion, NY, our armunition manufacturing plant in Ilion, NY, our armunition manufacturing plant in Loncke, AR, and our LE factory field personnel located imetatine country. We stand ready to take the steps necessary to make sure your officers have the best.

## Remington's Armorer's School. The

Remington Armorer's School started decades age with a single instructor and courses presented only at the firearms manufacturing plant in Ilion, NY. Today, the school has four instructors with over 100 years combined experience and courses are presented in Ilion and at requested locations in the US, Canada, and internationally. Our mission is to train LE personnel how to repair and maintain the Remington firearms used by their officers, with courses limited to LE, government, or military personnel only. In-depth training is provided on disassembly, re-assembly, respection, troubleshooting, service, repair, and factory authorized modifications. It's all the important information to keep your department's Remington firearms in peak working order.

Over the years, pair predicts have evolved to meet the rapidly changing hasds of the LE community. A wide range of accessory optimis allows the customer to tailor hemington products to their specific needs. Because of this variety, the department armorer must upsectand have to repair, mandain, and service these systems.

We offer 2-day spaces first his 870P Series shotgund and the 700P Series Rifles, and a comprehensive 4-889 fathers school held dirly in tion, NY, for the 870P and 14-876 Shotguns and 700P Series Rifles. The 4-day factory school also adds a dimension that cannot be equalled in the field, as armorers can interest, the production methods involved.
