The Remington® Model 870® Wingmaster® Jr. is the
Perfect Choice for a Child's First Shotgun

Madison, NC - For over fifty years, the Model 870 has been recognized by millions of hunters and shooters as one of the most dependable pump action shotgun available. Now younger hunters can experience that dependability. Remington is proud to offer a version specifically designed with kids in mind - the 20 gauge Model 870 Wingmaster Jr. This well-balanced, versatile shotgun is the appropriate choice for young hunters and joins the Model 870 Youth, designed for the older youth or adult. In the extensive family of Model 870 shotguns.

Built on the lightweight 20-gauge, Youth Model 870 platform, the Wingmaster Jr. has a high gloss American Walnut foreend and stock, shortened to a 12-inch length of pull (one inch shorter than our standard Youth version and two inches shorter than our standard Model 870). The vent rib Rem® choke barrel is 18 3/4-inches in length and comes with Full, Modified and Improved Cylinder choke tubes for balance, ease of handling and versatility in the field. Both barrel and receiver have a high polish blued finish.

As that young hunter matures, simply replace the butt stock with a standard youth or adult version; add interchangeable Rem choke or rifled barrels and this reliable pump action will provide a lifetime of hunting memories.

The Model 870 Wingmaster Jr. 20 gauge shotgun is available at a suggested retail price of \$648.
