

Remington® Introduces Five Rifles Chambered for Sizzling New Varmint Caliber – the .204 Ruger (cont'd)

Model 700 SPS (Special Purpose Synthetic) – Now, for 2005, this value-priced synthetic version of the venerable Model 700 provides the avid varmint hunter with a durable and accurate rifle or is the perfect “work tool” around the ranch. The Model 700 SPS features a newly redesigned, more ergonomically appealing black synthetic stock and features the recoil-reducing, Remington R3 Recoil pad. The clean 24-inch barrel has a matte blued finish and is drilled and tapped for scope mount. The hinged floorplate magazine has a capacity of four + one. This value-priced rifle delivers the solid design features and out-of-the-box accuracy that you expect from the Model 700 bolt action rifle family. Suggested retail price: \$520.

Model 700 VLS (Varmint Laminated Stock) – A member of Remington’s extensive line of heavy barreled varmint line-up since 1995, this Model 700 features a handsome, two tone brown laminated, Monte Carlo stock with cheekpiece and beavertail shaped fore-end. Laminate stocks provide unparalleled strength and resistance to weather while maintaining the traditional look and feel of a wood stock. Partner this rigid stock with the legendary Model 700 action and this varmint rifle is a tack driver. Other features include 26-inch heavy varmint contour barrel, hinged floorplate magazine and satin blued finish on all exposed metalwork. Suggested retail price: \$759.
