- A. New for 2004 is the limited edition Remington 700 Classic in 8mm Mauser.
- B. Remington Classic has 4-round mag capacity and hinged floor plate. Cartridge nose points to thumb-operated safety lever.
- C. Remington 700's security system will not allow bolt to be closed when engaged. Green-handled key is inserted into J-slot of safety button for activation.
- D. Author fitted rifle with Optonics Buckridge 3-9X40mm variable scope.
- E. Test ammo included hunting loads with 170gr. JSPs from Remington and Federal, plus military surplus loads with 198gr. FMJ bullets.
- F. Accuracy testing of the new Remington was done from the bench.
- G. At 100 yards. Velocities of the test cartridges were measured with an Oehler 35P chronograph.
- H. The heavy 8mm Mauser bullets bucked the 15-20 MPH wind pretty good and the best 3-shot groups with commercial and military ammunition ran from just over 1.5" to just under 2.5".
- I. A Shooters Ridge Steady Point rifle rest was used during the Remington T&E.
- J. and cut felt recoil considerably. Corrosive fouling from the aged military cartridges was eliminated with Clean Gun's Copper Removal Foam.
