

3. Premier® Match Sniper Ammunition –

* **.308 Win. BTHP Match** is loaded with Sierra® MatchKing® Boat-tail bullets, high-grade primers, and specially blended powders for consistent velocity and exceptional accuracy to guarantee MOA accuracy out to 500-yards.

* **.223 Remington HP Match** uses a 62-gr. Remington bullet that produces superb match-grade accuracy regardless of 1:12 or 1:9 twist barrels. The special internal design of this flat base bullet delivers MOA performance equal to that of a boat tail bullet.

4. **Remington® Premier Ultra Mag** uses an innovative case design to provide outstanding velocity and energy. The result is a non-belted magnum with larger case diameter, improved accuracy, exceptional flat shooting capabilities, and remarkably high energy retention at extended ranges. Bullet weights and styles designed for a variety of applications.

* Available in 7mm, .300, .338 & .375

5. **Remington® Premier “Short Action” Ultra Mag** provides long-action magnum performance in a short-action configuration. The short-action ultra mag’s highly efficient case design duplicates or exceeds belted magnum ballistics with up to 12% less powder.

* Available in .300 Rem SA Ultra Mag & 7mm Rem SA Ultra Mag

6. **Premier® Scirocco™ Bonded Ammunition** is the most advanced polymer-tipped, boat-tailed bullet available. The expansion-generating polymer tip and boat tail case combine to produce remarkably flat trajectories that defies air resistance at one end and reduces drag at the other. The bullet’s precise concentricity and secant ogive nose profile produce superb accuracy. The progressively tapered, heavy-based, pure copper jacket is bonded to the lead core to retain over 75% of its weight at all velocities.

* Available in .270 Win, 7mm Rem Ultra Mag, .308 Win, .30-06 Spfld, .300 Win Mag, and .300 Rem Ultra Mag

8. **6.8mm Remington® SPC (Special Purpose Cartridge)** was developed in conjunction with the U.S. Military to produce a cartridge with greater medium range capability than the standard 5.56 x 45mm and function in M4/M16 rifles. This intermediate length rifle cartridge is based on the 30 Remington case and specifically developed to provide increased reliability, incapacitation, and accuracy not only at close
