

Thank you for contacting Remington Country. The butt plate or recoil pad can be removed with a phillips head screw driver. Use a long handled flat head screw driver to loosen the action spring tube nut and washers. You would then remove the action spring retaining pin by tapping it out with a punch. **CAUTION:** the action spring is under tension and will follow after removing this pin.

Dating Stren

Thank you for your interest in Stren. We do not date the Stren packaging. If during the first 60 days from date of purchase, your Stren fishing line fails to perform to your complete satisfaction, Stren will replace it.

Just return, postage paid, any remaining line (used or unused) along with the spool, a copy of your dated sales receipt, and a brief explanation with return address to:

1100 2 3/4 vs 3"

Thank you for visiting Remington Country and your continued use of our Remington products. The barrel that is used on the Model 1100 is what determines the size shell that it will cycle. If your barrel is marked 3" only, then it will only eject 3" shells. The Model 1100 was never set up to cycle both size shells.

1100 2 3/4" won't cycle light loads

Thank you for visiting Remington Country and your continued use of our Remington products. The barrel that is used on the Model 1100 is what determines the size shell that it will cycle. If you have an 1100 field 2 3/4" barrel, it was designed to handle 3 1/4 drams of powder 1 1/8 oz of shot up to 2 3/4" magnum loaded shells. There is not a conversion that will allow it to cycle lighter loads.

Break-in Procedure

Thank you for contacting Remington Country. Remington does not have a standard break-in procedure. A guideline would be to swab the bore between each shot for the first 20 shots and then every 3-5 for the next 20-40.

The chainsaws

Thank you for contacting Remington Arms, Inc. We do not offer industrial tools at this time. Following is the manufacturer's information for parts and service for Remington Industrial tools.

Desa International
2701 Industrial Dr.
Bowling Green, KY 42101
270-781-9600
