

16 gauge ammo wish list.

Thank you for your interest in Remington products. We will not offer 16 gauge STS shells for 2003. The 16 gauge shotguns have been very popular and we feel the ammunition line will be expanded in the future.

finding particular models

Thank you for your interest in Remington firearms. Following are possible sources for finding particular models:

gunsamerica.com
auctionarms.com
gunfinder.net

16 gauge 1100 barrels

Dear Mr. Farber,

Thank you for contacting Remington Country. The current 16 gauge 1100 barrels will interchange with older model 1100's. Extra barrels will not be available until production and repair needs are met. Check with our parts department in 2004 for possible inventory.

Thank you for contacting Remington Country. The 16 gauge barrels have not been available for parts sales previously, however during our slow season we may have available inventory to offer a RemChoke 16 gauge barrel for sale. For pricing and availability call our Parts Department at 800-243-9700, Mon-Fri 9-5 EST.

Camo Vendors

Thank you for contacting Remington Country. The Remington factory would not offer camo refinishing, however the following camo vendors may be a source.

Ace Refinishing, 813-931-5806
Trebark Outfitters, 800-843-2266

Sponsorship

Dear Sir/Madam:

Thank you for taking the time to write Stren® Fishing Lines about a sponsorship program. We were pleased to learn that you think so highly of our products, use them regularly, and want to help us promote them.

Unfortunately, we do not offer a sponsorship program. However, you may wish to contact our sales agency in your region for additional assistance. For your convenience we have included their information below:
