.17 Caliber will be fine.

John,

We have made and tested 17 caliber, I will be reviewing them tomorrow, and we will be setting the fire control to minimum trigger pull. If you want we can investigate some 22-250. Let me know. Thanks John

Please advise today what caliber M700 LV SF we will send. I would probably recommend 22-250, but I don't know what you have on hand and what you have already started looking at. We need to get an order in on the books and I need this information in order to do that.
