gunsamerica.com
auctionarms.com
gunfinder.net

To remove the bolt on the Model 600:

Thank you for contacting Remington Country. To remove the bolt, push safety forward to unlock the bolt and raise bolt handle. Pull the bolt rearward. Press down on the front of the bolt stop. The bolt stop is located in the left rear of the bolt channel in the receiver. Use a small flat key or screw driver. Allow the bolt to slide back and disassemble as bolt stop is passed. Lift bolt from the rifle.

If you will complete the form located through the link below we will forward to you a copy of the original owner's manual.
