#### How to re-install the bolt on the 870

Thank you for your inquiry. Assemble the bolt onto the slide and action has and guide them into the receiver. Without putting pressure on the fore-end press the right shell latch at the sign. If you are applying too much pressure on the fore-end it won't go in. Once you feel it move over that latch, press the fest shell latch at the tip and then pull the fore-end all the way in. Again, if you are putting pressure on the fore-end before depressing the shell latch, it won't budge.

If you need further assistance or would like to speak with a Parts and Region-Representative, call 800-243-9700, Mon-Fri 9-5 EST
