Todd,

I have one here. The gun is on my consignment account, so I will need it back, or it will need to go back on a RGA. I would prefer to send it to your attention and then get it back as I am afraid that if we RGA it, it will end up on the rack as a WIP gun. Does it need to come to your attention? Also, this gun had an issue with the bolt binding when the front take down screw was torqued to spec. The screw appears much too long, so you guys may want to have someone review this as well.

Thanks,
