Meeting Minutes

To: See Distribution
From: S.Perniciaro
Date: 7-28-03
Subject: ISS Elimination

A meeting was held in Ilion, NY on Friday, 7-25-03 to discuss any issues with eliminating the ISS system from all Ilion produced firearms.

In attendance were: S.Perniciaro, J.Waldo, J.Bunnell, R.Skinner, A.Wright, J.Mead, D.Findlay, J.Kelly, R.Orf, P.Zito, G.Sietsema, J.Balio, R.Lewis and P.Tucker.

ISSUES:

1. Owners Manual – Change the owners manual immediately to have the instructions for **both** ISS and non-ISS firearms.
2. Phase in the non-ISS firearms. Do not establish a transition date.
3. Presently the box end labels are marked with a “J” to designate ISS. Eliminate the “J” immediately.
4. We need to build a number of non-ISS fire controls.
 - a. In the case of the bolt actions, we need to evaluate with the old fire control with the ISS MIM trigger.
 - b. In the case of shot gun fire controls we need to evaluate with the new MIM trigger.
5. Drop testing will be required.
6. We will need to develop a list of all parts taken out and being put in.

Distribution: J.Waldo, J.Bunnell, R.Skinner, A.Wright, J.Mead, D.Findlay, J.Kelly, R.Orf, P.Zito, G.Sietsema, J.Balio, R.Lewis, P.Tucker, J.Doolittle, E.Schoppman, J.Trull, J.Bunting, P.Cahan, R.Longo, T.Nagle
