Test Lab Work Request Form

Date Submitted: 02/06/04	Tracking #: FLW 1395
Project #: 241314	Engineer: Franz
Test Objective: Test 710 Mag	gnum Firecontrol performance at new settings durin
Std. SAAMI Jar-off testing	•
Tot Descriptions Tout Course	NATIONAL SINCE CARNALI. CE
-	M/710 Magnum rifle for SAAMI Jar-off. rque of scope ring mounting screws when loosening.
-	rque of scope ring mounting screws when loosening.
-	engagement as set by the factory.
4. Measure Trigger Pull a	
5. Reset Engagement as no	* comme * 'water
6. Reset Trigger as needed	
7. Reassemble with stock	& scope to using torque specs.
	& scope to using torque specs. AMI Jar-off testing of all guns.
8. Perform Standard SAA	AMI Jar-off testing of all guns.
8. Perform Standard SAA Per our normal procedure if	AMI Jar-off testing of all guns. a gun fires during testing, leave the gun as it was
8. Perform Standard SAA Per our normal procedure if	AMI Jar-off testing of all guns.
8. Perform Standard SAA Per our normal procedure if	AMI Jar-off testing of all guns. a gun fires during testing, leave the gun as it was
8. Perform Standard SAA Per our normal procedure if	AMI Jar-off testing of all guns. a gun fires during testing, leave the gun as it was
8. Perform Standard SAA Per our normal procedure if a dropped and contact a memb	AMI Jar-off testing of all guns. a gun fires during testing, leave the gun as it was eer of management or engineering.
8. Perform Standard SAA Per our normal procedure if a dropped and contact a memb Resource Usage:	AMI Jar-off testing of all guns. a gun fires during testing, leave the gun as it was ner of management or engineering. Test Results Required:
